ABOUT ME

Backend developer focused on building scalable server-side systems and APIs.

Experienced in Python, FastAPI, and working with databases like PostgreSQL and MongoDB.

EDUCATION

University of Illinois - B.Sc. in Software Engineering

Graduation: 2024

SKILLS

- Python, FastAPI, SQL, MongoDB
- RESTful API Design, Authentication, Caching
- Docker, Git, CI/CD, Redis

PROJECTS

- API Service for E-commerce

Developed and deployed RESTful APIs using FastAPI and PostgreSQL.

- Authentication System

Built a JWT-based authentication service using FastAPI.

EXPERIENCE

Intern - Backend Team at CodeWorks

Maintained microservices, wrote unit tests, and improved API performance.

CERTIFICATIONS

- Backend Development with Python - Coursera
