## ABOUT ME

I am a 4th-year Computer Engineering student at Pamukkale University.

I develop projects in the fields of artificial intelligence, machine learning, and data science.

I work on data analysis, model training, and deployment using Python;

and I develop solutions for image processing and classification problems

with libraries like NumPy, Pandas, scikit-learn, TensorFlow, and OpenCV.

I integrate the models I develop into web interfaces using tools like Streamlit and FastAPI,

turning them into user-friendly and accessible applications.

By gaining experience in both model development and API design,

I can build end-to-end AI solutions.

Thanks to my analytical thinking and eagerness to learn,

I aim to deepen my knowledge in this field and contribute professionally.

## EDUCATION

Pamukkale University  Computer Engineering (2022 - Present)

Ataköy Anatolian High School (2017 - 2021)

## EXPERIENCE

Acunmedya Academy  AI Intern (Jan 2025  Present)

Worked on Python-based artificial intelligence projects and practical applications.

## SKILLS

Python, NumPy, Pandas, Matplotlib, TensorFlow, Scikit-learn, OpenCV, NLP, Computer Vision, Streamlit, FastAPI, MSSQL, Docker, HTML, CSS, MS Office

POSITIONS

Data Scientist, ML Developer
